

# Social Media Images and Message

Please feel free to use the social media images located in this file folder as well as the message below in order to communicate with your customers using your social media platforms.

## Social Media Message

Have you heard? Our portal is moving to #Zywave. Be on the lookout for a welcome email that will prompt you to create your account.

## Social Media Images

Social media images can be found in the downloadable folder. There are files for you to use in which you can place your logo on them if you wish, or you can simply use the ones similar to the examples below. Before posting, please make sure to use the image that is compatible with the social media platform. The file name for each image references the social media platform in which it is suited.
